

## PROXRUNNER

### Quick Start Guide

#### Thank you for choosing SpringCard !

ProxRunner RFID scanner is a bluetooth RFID scanner. It is the counterpart of a barcode-scanner, in 13.56MHz RFID environment.

This document will help you to connect this product.

#### BEFORE YOU START

**Please fully charge the SpringCard ProxRunner before first use.**

Two software components are available for use with a ProxRunner.

- **BaracodaManager**, a user-friendly Middleware which permits easy usage of ProxRunner. This software is available for PC, Pocket PC, Palm, Win CE .Net, Symbian, Java and RIM environments. A Widcomm or Microsoft Bluetooth driver is required (cf Compatibility Table)
- **KEmul**, a simple Keyboard emulation. Use it if your Bluetooth driver is not a Widcomm or Microsoft one

**Your terminal is already Bluetooth-enabled?**

In case your terminal isn't Bluetooth-enabled, install a Bluetooth adapter before continuing the procedure.

#### DOWNLOAD SOFTWARE

- Go to [www.baracoda.com/baracoda/formulaire/index.php](http://www.baracoda.com/baracoda/formulaire/index.php)
- Register yourself as a new partner thanks to the register form
- Activate your account from the confirmation e-mail
- Enter the "Download" section

- Select "BaracodaManager / KEmul"

**Check your Bluetooth driver reference and simply download the correct version of BaracodaManager or KEmul.**

- Install BaracodaManager or KEmul.

#### CONFIGURING BARACODAMANAGER

- Turn on the device
- Launch BaracodaManager
- Search all devices
- Select the device corresponding to your ProxRunner and add it
- Choose the KEmul plugin
- Hide BaracodaManager

#### CONFIGURING KEMUL

- Turn on the device
- Connect the device to the terminal using the Bluetooth software
- Activate the COM Port Service
- Launch KEmul
- In port/reader type, put the port number and choose the TagRunner reader

#### USING THE PROXRUNNER

The SpringCard ProxRunner is seen as a keyboard. Thus you must put your cursor where you want the data to be written.

Next **press** the ProxRunner button and put a card in front of the antenna.

#### CONFIGURING THE PROXRUNNER

Press the ProxRunner button and let the Master card in front of the antenna **until the reader reboots**.
