

SpringProx-RC & SpringProxBio-RC are contactless reader/writer for **TDS Recon** rugged handheld computers, running Microsoft Windows Mobile (Pocket PC).

ISO/IEC 14443 contactless coupler :

- Full support of Philips Mifare, DESFire...
- Embedded T=CL protocol, ISO/IEC 14443-A/B compliance from layer 1 to 4.
- Unified SpringProx API

SpringProx-RC

Contactless reader/writer with SIM/SAM slots

SIM/SAM

- 2 micro SIM/SAM slots (ID000),
- Compliance : ISO 7816 (3 and 4), T=0 & T=1 protocols (GemPlus GemCore chipset),
- 3V or 5V smartcards.

A few applications...

- ✓ Strong authentication
- ✓ Digital signature
- ✓ Transportation ticket issuing (train, suburb, bus...)

SpringProxBio-RC

Contactless reader/writer with biometrics

Fingerprint device

- Sagem MorphoSmart CBM module, suitable for enrolment, authentication and identification,
- Optical sensor : 500dpi, 8bits per pixel, surface 13mm x 20mm.

A few applications...

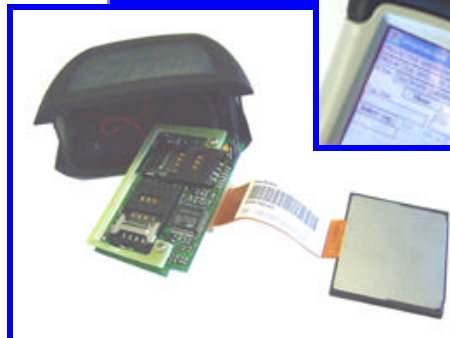

- ✓ Mobile Acces control (Aiports, ports,...)
- ✓ Electronical documents (Driving licence, ID card,...)

Development kits

Two **SpringProx Starter Kit** are available, featuring :

- Either 1 x SpringProx-RC or 1 x SpringProxBio-RC
- 1 x CSB-5 or CSB-5B for PC-based application prototyping
- Redistribuable SpringProx API binaries (DLL for Windows CE / ARM CPU, and .NET class library),
- Sample softwares with source code,
- Development and integration documentation,
- 1-year access to our Developers Technical Support,
- Set of contactless cards.
